

Splash™ Bath Lift

An ultra-lightweight, budget-friendly bath lift

With all the basic elements needed to safely maintain personal hygiene, the Splash bath lift has been designed to offer good value for the budget conscious. Weighing an incredibly low 14.3 lbs, Splash is not only the lightest battery-powered bath lift available in the US, its robust design also comfortably lifts users of up to 280 lbs.

A simple, practical bathing solution

Fixed back design

- Optimizes legroom by allowing Splash to fit close to the back of a tub

Low seat travel

- Maximizes water immersion for improved personal hygiene

Smooth movement and solid, stable design

- Offers a safe bathing experience

Slim remote with large hand controls for easy operation

- Can be easily operated by users with small hands and/or limited dexterity

Battery level indicator with Stop Descent™ feature

- Monitors battery power, preventing descent when low

Simple to clean surfaces with limited crevices

Trim and lightweight for easy moving and handling

Total weight of only 14.3 lbs

- Offers quick and uncomplicated fitting and removal from the bath in one complete unit

Ultra-compact design

- Provides ultimate ease of carrying
- Can be stored in even the smallest of spaces

Subtle, unimposing, and unobtrusive design

- Blends discreetly into any bathroom environment
- Barely noticeable when stored in its lowest position in the bath

Slim and Modern look

- Provides a fresh, non medical appearance in the home
